Hi Melissa

Here is the GMP deed table and GMZ map with sampling locations

---

Monthly report - On-going communications with residential owners to schedule quarterly sampling in August and

answer questions as necessary.

I thought we had asked previously to see the communication on the sampling....we should review and revise as necessary

Cheryl – do we necessarily have anything to discuss on Wednesday? Jim Campbell called and indicated that he didn't have anything to report for right now, so it would really be if we (the agencies) had anything we wanted to share/discuss with them. I don't have anything pertinent to discuss with them at this time that can't wait for another couple weeks.

Thank you for passing this along.

I called the Derry Public Works Director after reading this and left him a message saying we should all talk as our actions appear to overlap.

Cheryl

Hi Cheryl,

Just wanted to keep you up to date on the investigation that is going on with regards to the Town of Derry waste water treatment lagoons that are on the eastern side of I-93. This is the site the Cannon Sites Group is blaming the impacts in the Boston/Charleston area on. They received approval from NHDES earlier this week to proceed with the plan.

-Andy
